

Turn compliance clients into monthly advisory retainers — without hiring more juniors.

MILŌN is the shared workspace between you and every client: one health score, a 13-week cash view, and AI-drafted advisory they actually open — under your brand.

THE PROBLEM

- Clients ask “how are we doing?” between year-ends. You answer with hours you can’t bill cleanly.
- Spreadsheets and annual packs don’t scale across a book of 50-150 SMEs.
- Advisory revenue is stuck behind capacity, not demand.

WHAT YOU GET

Multi-client dashboard — Live health across the portfolio; spot drift before the panic call.

AI advisory drafter — Claude drafts; you refine, sign off, send as the firm.

White-label reports — Your brand on every portal and pack.

Risk radar — Deteriorating clients flagged early.

Retainer model — Designed / planned economics: ~R1 200+ / ~\$70+ uplift per client / month (not a guarantee).

HOW IT WORKS

1

Firm account → invite clients (or upload statements / connect books)

2

MILŌN scores 4 pillars + 31 ratios → one health score

3

You send a monthly advisory touch in minutes, not hours

TRUST

Built for SA SMEs & US SMBs · SAICA-referenced ratios (ZA) · End-to-end encrypted · Live sync

Accountant plans planned: up to 150 clients / unlimited · white-label included · early access / Spark free for pilots
